

PeaceHealth Siuslaw Region

July 22, 2008

To Whom It May Concern,

For the past three years PeaceHealth Siuslaw Region has utilized West Coast Media Group for numerous projects including video, audio, graphic design and various promotional materials. We have been very impressed with their service, skill, flexibility, price, and expertise. As a not-for-profit organization, stewardship remains a high priority. We have been able to work effectively and collaboratively with West Coast to achieve our desired results while remaining within our budget constraints.

Ave and his staff are wonderful thought-partners, building on the clients' input to produce a final product beyond their expectations. Feedback from both PeaceHealth administration and staff has been extremely complimentary toward West Coast. Whether filming surgeons in the OR or doing a photo shoot for a brochure, Ave and his staff are professional, productive and personable.

I would highly recommend West Coast Media Group to anyone searching for an effective partnership. We have been very pleased with their services and will continue collaboratively telling the PeaceHealth story of health, hope and healing.

Sincerely,

Di Lacey
