

# **PORT OF SIUSLAW**

**Serving Western Lane County and The Central Oregon Coast**

"Creating quality jobs and businesses through the development and application of Port facilities, resources and unique capabilities."

14 July 2008

To Whom It May Concern,

The Port of Siuslaw has been using the services of WestCoast Media Group, Inc. for over six years and we have been very pleased with their work.

Ave Bernard and his staff have provided friendly, responsive and professional web site design and maintenance services for the Port. They have responded promptly to requests for updates to our site and have been proactive in suggesting additional web content. WestCoast Media Group Inc. staff do an excellent job of posting agendas, minutes and meeting packets in easily accessible formats and in a timely fashion.

We are pleased to recommend the services of WestCoast Media Group Inc. and would be happy to answer any additional questions.

Sincerely,

Mark Freeman  
Port Manager
